Agenda

- Introduction – IDP immersion day
 - 11.00 – 11.15 CEST(DE) /10.00 – 10.15 GMT(UK)
- Introduction – Intelligent Document Processing
 - 11.15 – 12.00 CEST(DE) /10.15 – 11.00 GMT(UK)
- Module 1 – Document Classification
 - Intro, 12.00 – 12.45 CEST(DE) /11.00 – 11.45 GMT(UK)
 - Lab Part 1, 12.45 – 13.15 CEST(DE) /11.45 – 12.15 GMT(UK)
- Lunch Break
 - 13.15 – 14.00 CEST(DE) /12.15 – 13.00 GMT(UK)
- Module 1 - – Document Classification
 - Lab Part 2, 14.00 – 14.15 CEST(DE) /13.00 – 13.15 GMT(UK)
- Module 2 - Extraction and Enrichment
 - Extraction, Intro, Lab - 14.15 – 14.45 CEST(DE) /13.15 – 13.45 GMT(UK)
 - Enrichment, Intro, Lab - 14.45 – 15.30 CEST(DE) /13.45 – 14.30 GMT(UK)
- Break
 - 15:30 – 15:45 CEST(DE) /14.30 – 14.45 GMT(UK)
- Module 3 - Generative AI + IDP
 - Intro, 15:45 - 16:00 CEST(DE) / 14:45 - 15:00 GMT(UK)
 - Lab, 16:00 - 16:45 CEST(DE) / 15:00 – 15.45 GMT(UK)
- Conclusion
 - 16:45 – 17.00 CEST(DE) /15.45 – 16.00 GMT(UK)

Intelligent document processing with AWS AI services

Document Extraction

Go beyond OCR with accurate, versatile information extraction

INPUT → OUTPUT

Employment Application

Application Information

Full Name: Jane Doe

Phone Number: 555-0100

Home Address: 123 Any Street, Any Town, USA

Mailing Address: same as above

How did you hear about this position?
☒ Job fair ☐ Website ☐ Company Employee

Previous Employment History

Start Date	End Date	Employer Name	Position Held	Reason for leaving
1/15/2009	6/30/2011	Any Company	Assistant baker	relocated
7/1/2011	8/10/2013	Example Corp.	Baker	better opp.
8/15/2013	Present	AnyCompany	head baker	N/A, current

Table Recognition

7/1/2011	8/10/2013	Example Corp.	Baker	better opp.
----------	-----------	---------------	-------	-------------

Industry leading OCR accuracy for text extraction

Semi-structured extraction

Extract form data from documents as key-value pairs to preserve document structure

DOCUMENT

Full Name		
John	X	Doe
First	Middle	Last

Date of Birth			Gender
01	01	1971	Male <input checked="" type="radio"/>
MM	DD	YYYY	Female <input type="radio"/>

OUTPUT

Blocks:

PAGE, KEY_VALUE_SET

Example Output:

First: John
Middle: X
Last: Doe

MM: 01
DD: 01
YYYY: 1971

Male: True
Female: False

Outputs form field name (Key) and field value name (Value) with relationship data intact

Captures logical groupings, relationships, and glyphs

Output also includes confidence scores, and geometry info

Structured extraction

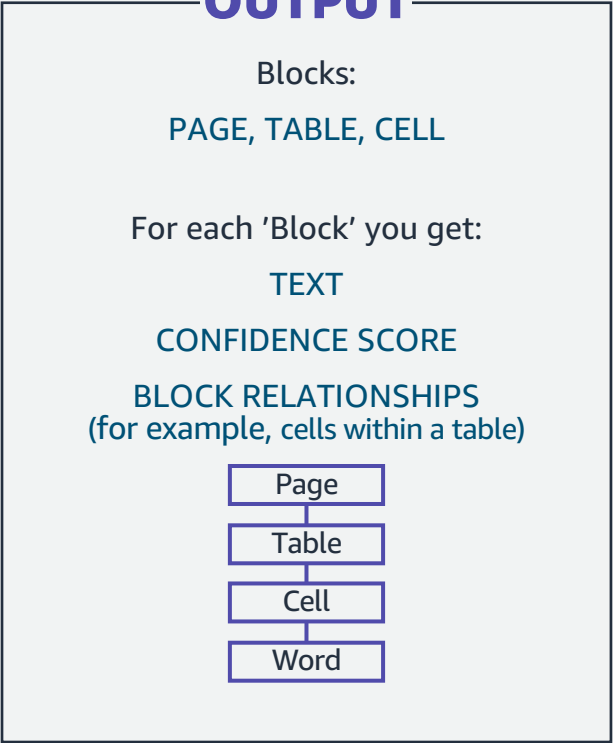

Extract tables from documents while preserving data structure and relationships

DOCUMENT

Previous employment history				
Start date	End date	Employer name	Position held	Reason for leaving
1/15/2009	6/30/2013	Any company	Head Baker	Family relocated
8/15/2013	Present	Example corp.	Baker	N/A, current employer

OUTPUT

Outputs recognized tables with relationships data intact

Intelligently groups cells within tables and words within each cell

Output also includes confidence scores, geometry info, and row/column indexes

Specialized Documents - Invoices and receipts

Specialized support to process invoices and receipts at scale

DOCUMENT

OUTPUT

Summary Fields:

Vendor Name: WHOLE FOODS MARKET

Subtotal (SUBTOTAL): \$3.50

Net Sales (OTHER): \$3.50

Tax/Fee (TAX): \$0.39

Sold Items (OTHER): 1

Paid (OTHER):

Debit (OTHER): \$3.89

Tax/Fee Total (TAX): \$0.39

Total (TOTAL): \$3.89

Line Items:

ITEM: Pizza Slice

PRICE: \$3.50

Outputs headline amounts, line item details and inferred fields (like Vendor Name)

Supports any style of invoice or receipt

No templates or configuration required

Document Extraction Lab

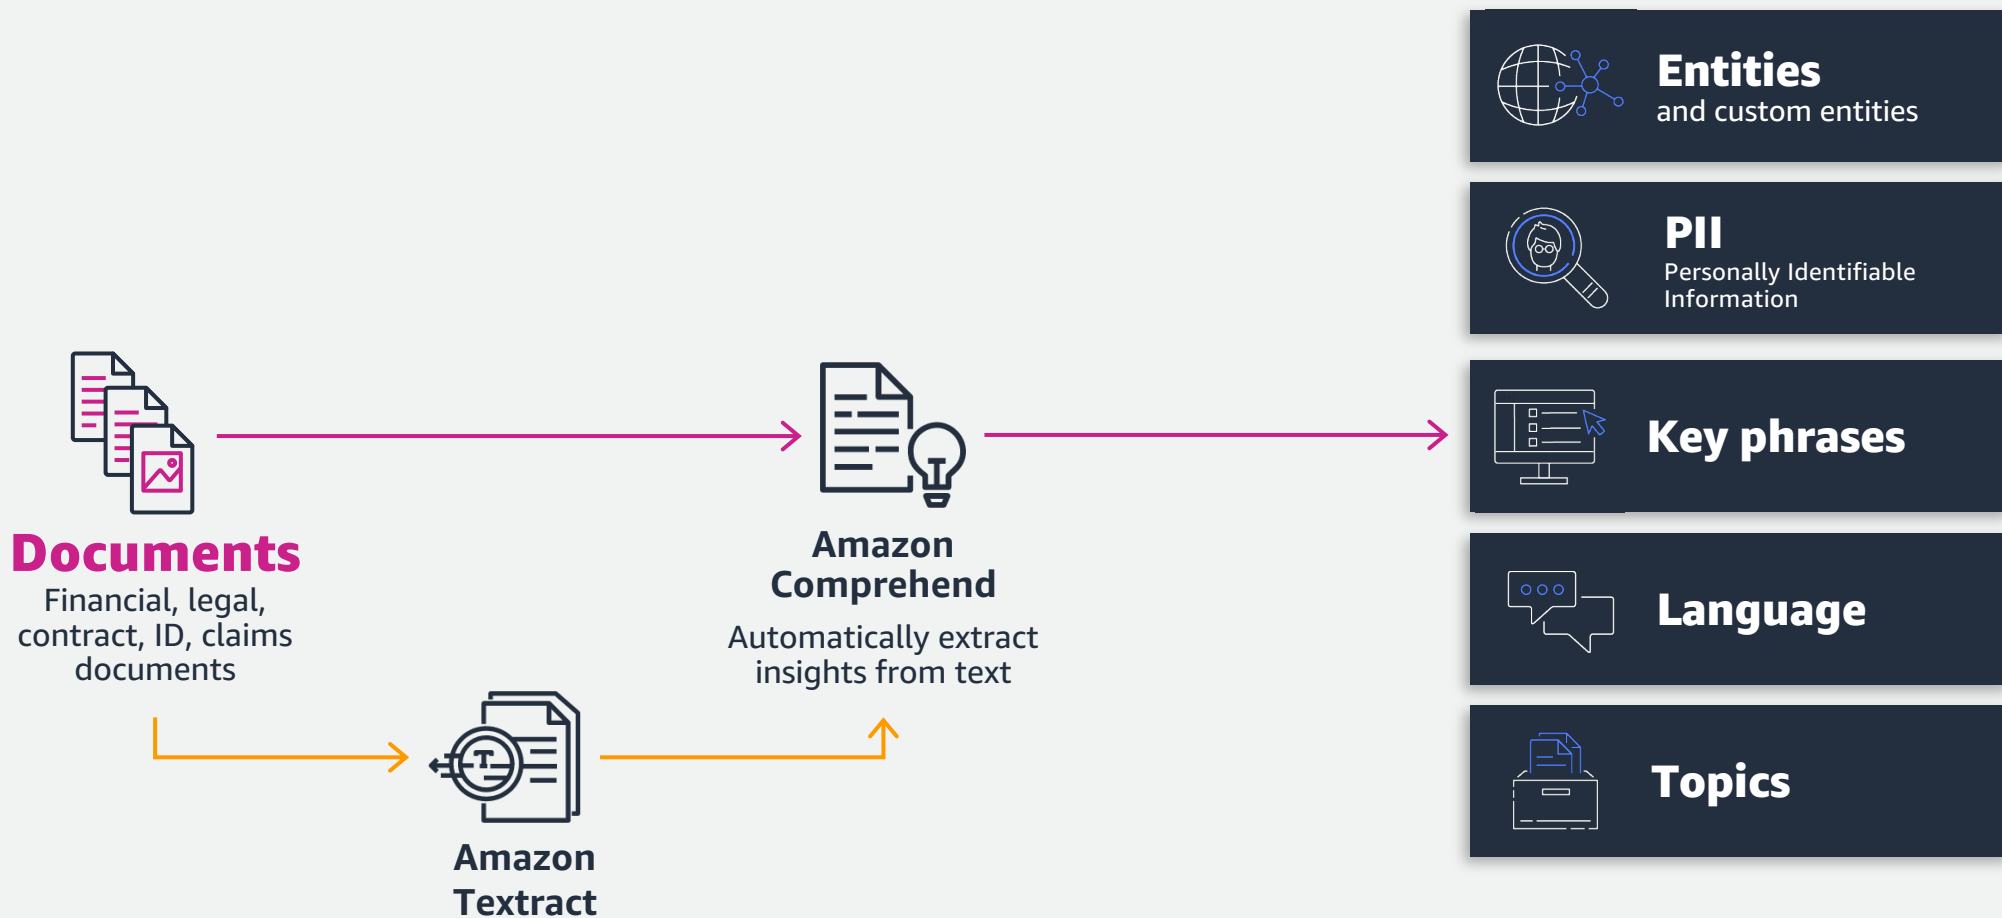

Enrichment

IDP enrichment with Amazon Comprehend

Discover insights and relationships in text

IDP enrichment with Amazon Comprehend

Redaction of sensitive data

DOCUMENT TEXT

Hi, my name is John Doe. For verification, the last 4 digits of my social are 6789 and my DOB is 01/01.

Hi, my name is [NAME]. For verification, the last 4 digits of my social are [SSN] and my DOB is [DATE_TIME].

Recognize common entities

DOCUMENT TEXT

Budget Mutual insurance Company
9876 Infinity Ave
Springfield, MI 65541
Client Laura McDaniel and date of death is 6/15/20202

OUTPUT

Organization: Budget Mutual insurance Company

Location: 9876 Infinity Ave
Springfield, MI 65541

Date: 6/15/20202

Recognize entities specific to your business

DOCUMENT TEXT

Hi my name is John. I am filing a claim for a car accident, my insurance number is 456-YQT.

OUTPUT

Summary fields:

Category of entity:
Policy_ID

Entity: 456-YQT

Confidence: 0.95

Automated Custom Entity Recognizer training

1

Prepare examples

Entity list/annotations

Entity value	Entity type
XT2457	PART
Renew subscription	ACTION
SD5578	PART
Cancel the order	ACTION

+

- Documents containing terms and phrases in text
- 100 examples per entity type recommended

2

Train Comprehend

- Automated or user-created annotations, automated algorithm selection, tuning and testing
- SDK or code-free Console UX

3

Analyze

Hello, my name is **John Doe** and thank you for calling **AnyCompany**. I understand you are calling about part number **XT2457**. We have that part on back order and we are expediting it for you.

Thank you, but I was expediting it last week. At this point I think we should go ahead and **cancel the order** entirely.

We are sorry to hear that sir, would you be willing to complete the order if we offered a 10% discount?

Yes, thank you.

Enrichment Lab

Review & Validation

Reduce the total cost / time for document processing

Common for people to review all documents prior to downstream usage

Limit people review to the documents with confidence scores < target

Use human in the loop (A2I) when needed

Human
Review

Business rules drive when to review

- Example: review if low field accuracy or if claim value is >[\$25K]
- Flexible to use your staff or your designated 3rd party
- Can use multiple reviewers for most critical data points
- Admin panels allow business users to update rules

Review the key-value pairs to the right and correct them if they do not match the document below.

Employment Application

Application Information

Full Name: Jane Doe

Phone number: 550-0100

Home address: 123 Any Street, Any Town, USA

Mail address: same as home address

Sample

Key-value pairs to review

Key-value pair ☒ Yes ☐ No

Full name: ☐ Key is not found

Jane Done

☐ Value is blank

Key-value pair ☒ Yes ☐ No

Phone number: ☐ Key is not found

550-0100

☐ Value is blank

Zoom in Zoom out Move Fit image

☐ No adjustment needed **Submit**

Flexibility to add Business Rules to Suite Your Needs

- add business rules via Lambda (with admin panel for business users with asterisk this is custom code)
- Example accuracy checkpoints with human loop
- Example not complete form with routing to separate process to deal with incomplete forms
- Example of simple logic is the cost over X then route this way...

Review & Validation Lab

Security and governance

IDP security, governance, and compliance posture

Security and governance

Data privacy and access management

Manage user, access permissions, and policies with IAM
Encrypt data end-to-end in transit, and at rest with AWS KMS

Network security and isolation

Isolate data to your private network and region using a Virtual Private Cloud and establish private connections with VPC Endpoints

Governance, audit, and log management

Enable governance, compliance, and operational and risk auditing with Amazon CloudTrail. Centralized logging with Amazon CloudWatch

Compliance

ISO 9001/27001/27017/27018

Health Insurance Portability and Accountability Act

Federal Risk and Authorization Management Program

Service Organization Certificate

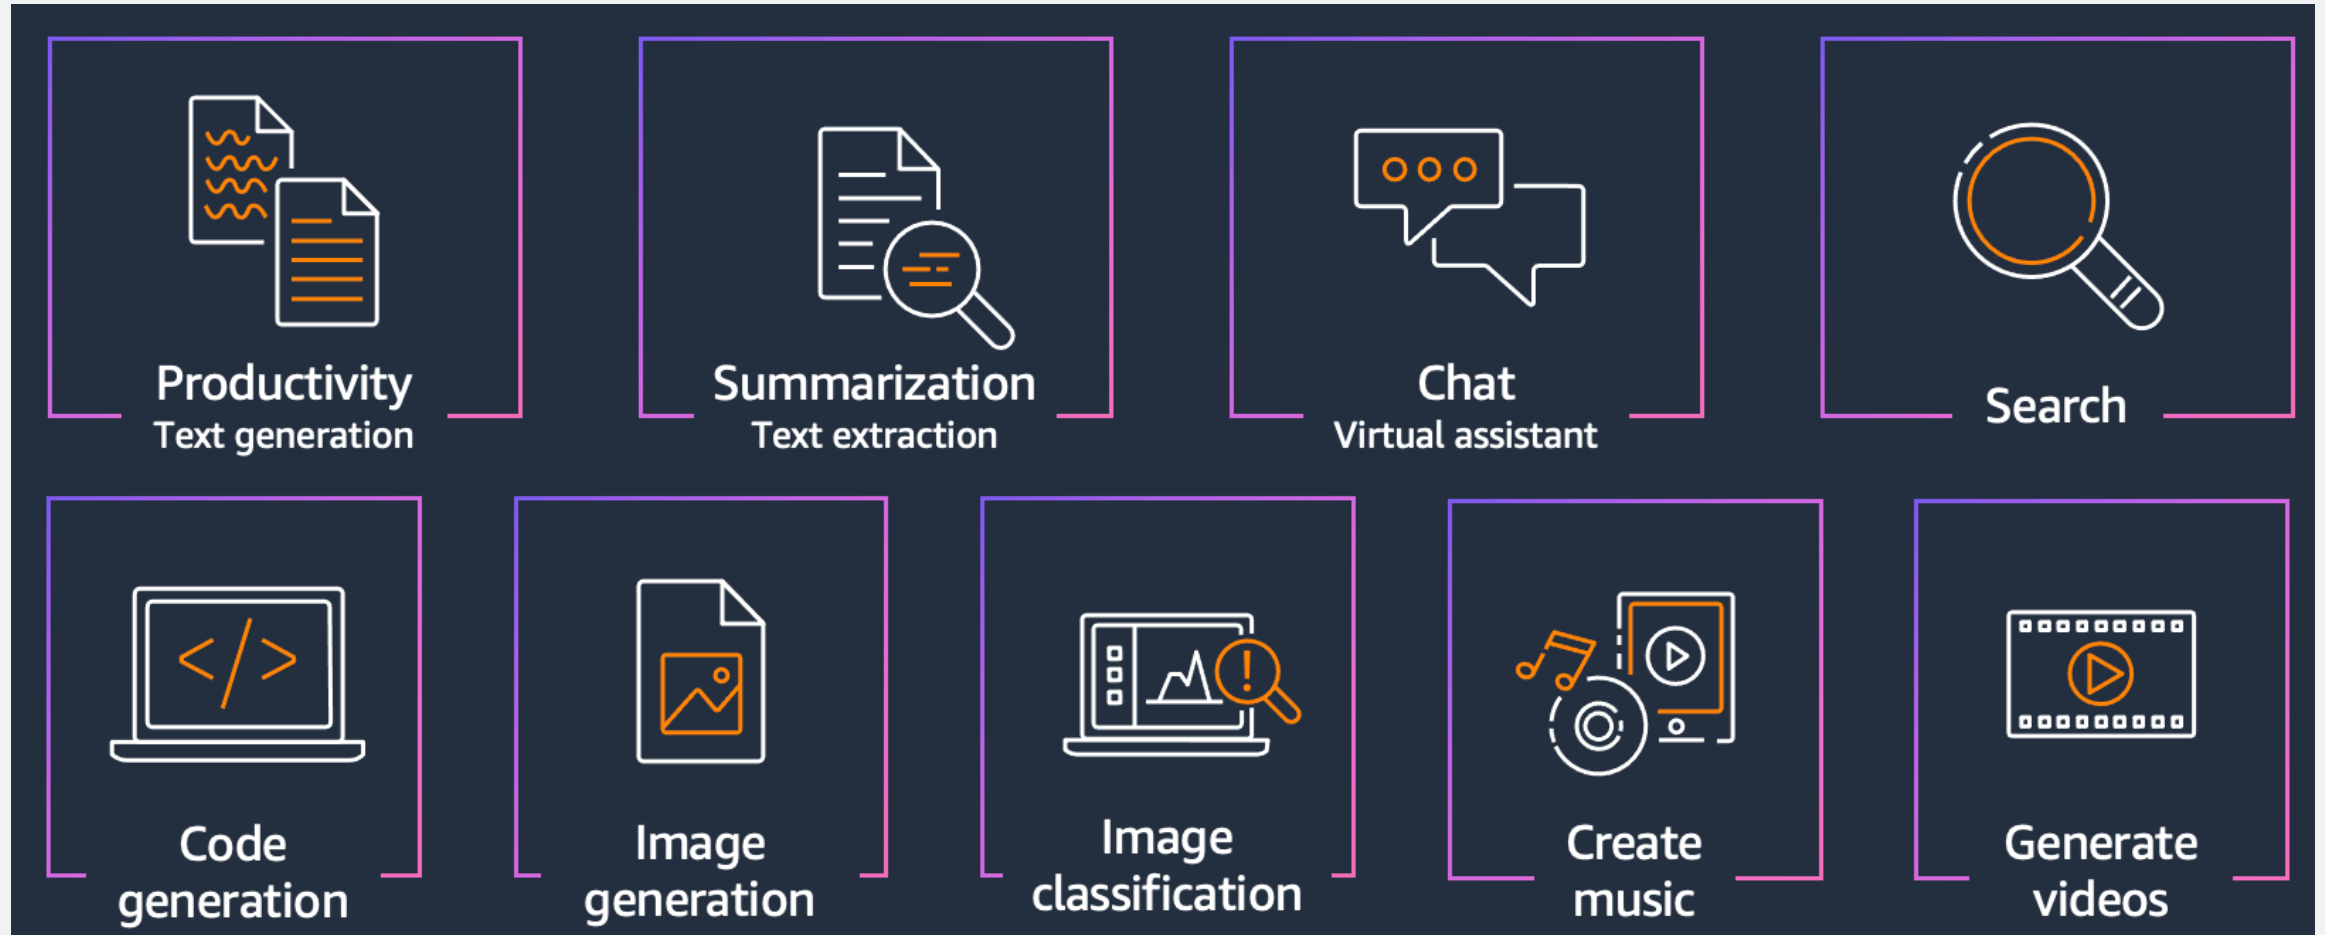

Payment Card Industry Data Security Standard

Generative AI + IDP

Generative AI is emerging across a range of domains ...

Types of foundation models

Input

FM

Output

“Summarize the articles on impact of walking on heart health”

Text-to-text

Generate text from simple natural-language prompts for various applications

“Ten thousand steps per day is optimum for maintaining a healthy heart”

“hand soap”

Text-to-embeddings

Generate numerical representation of text for applications like search and finding similarities between documents

Numerical representation of
“Hand soap refills
Hand soap dispenser
Hand soap antibacterial”

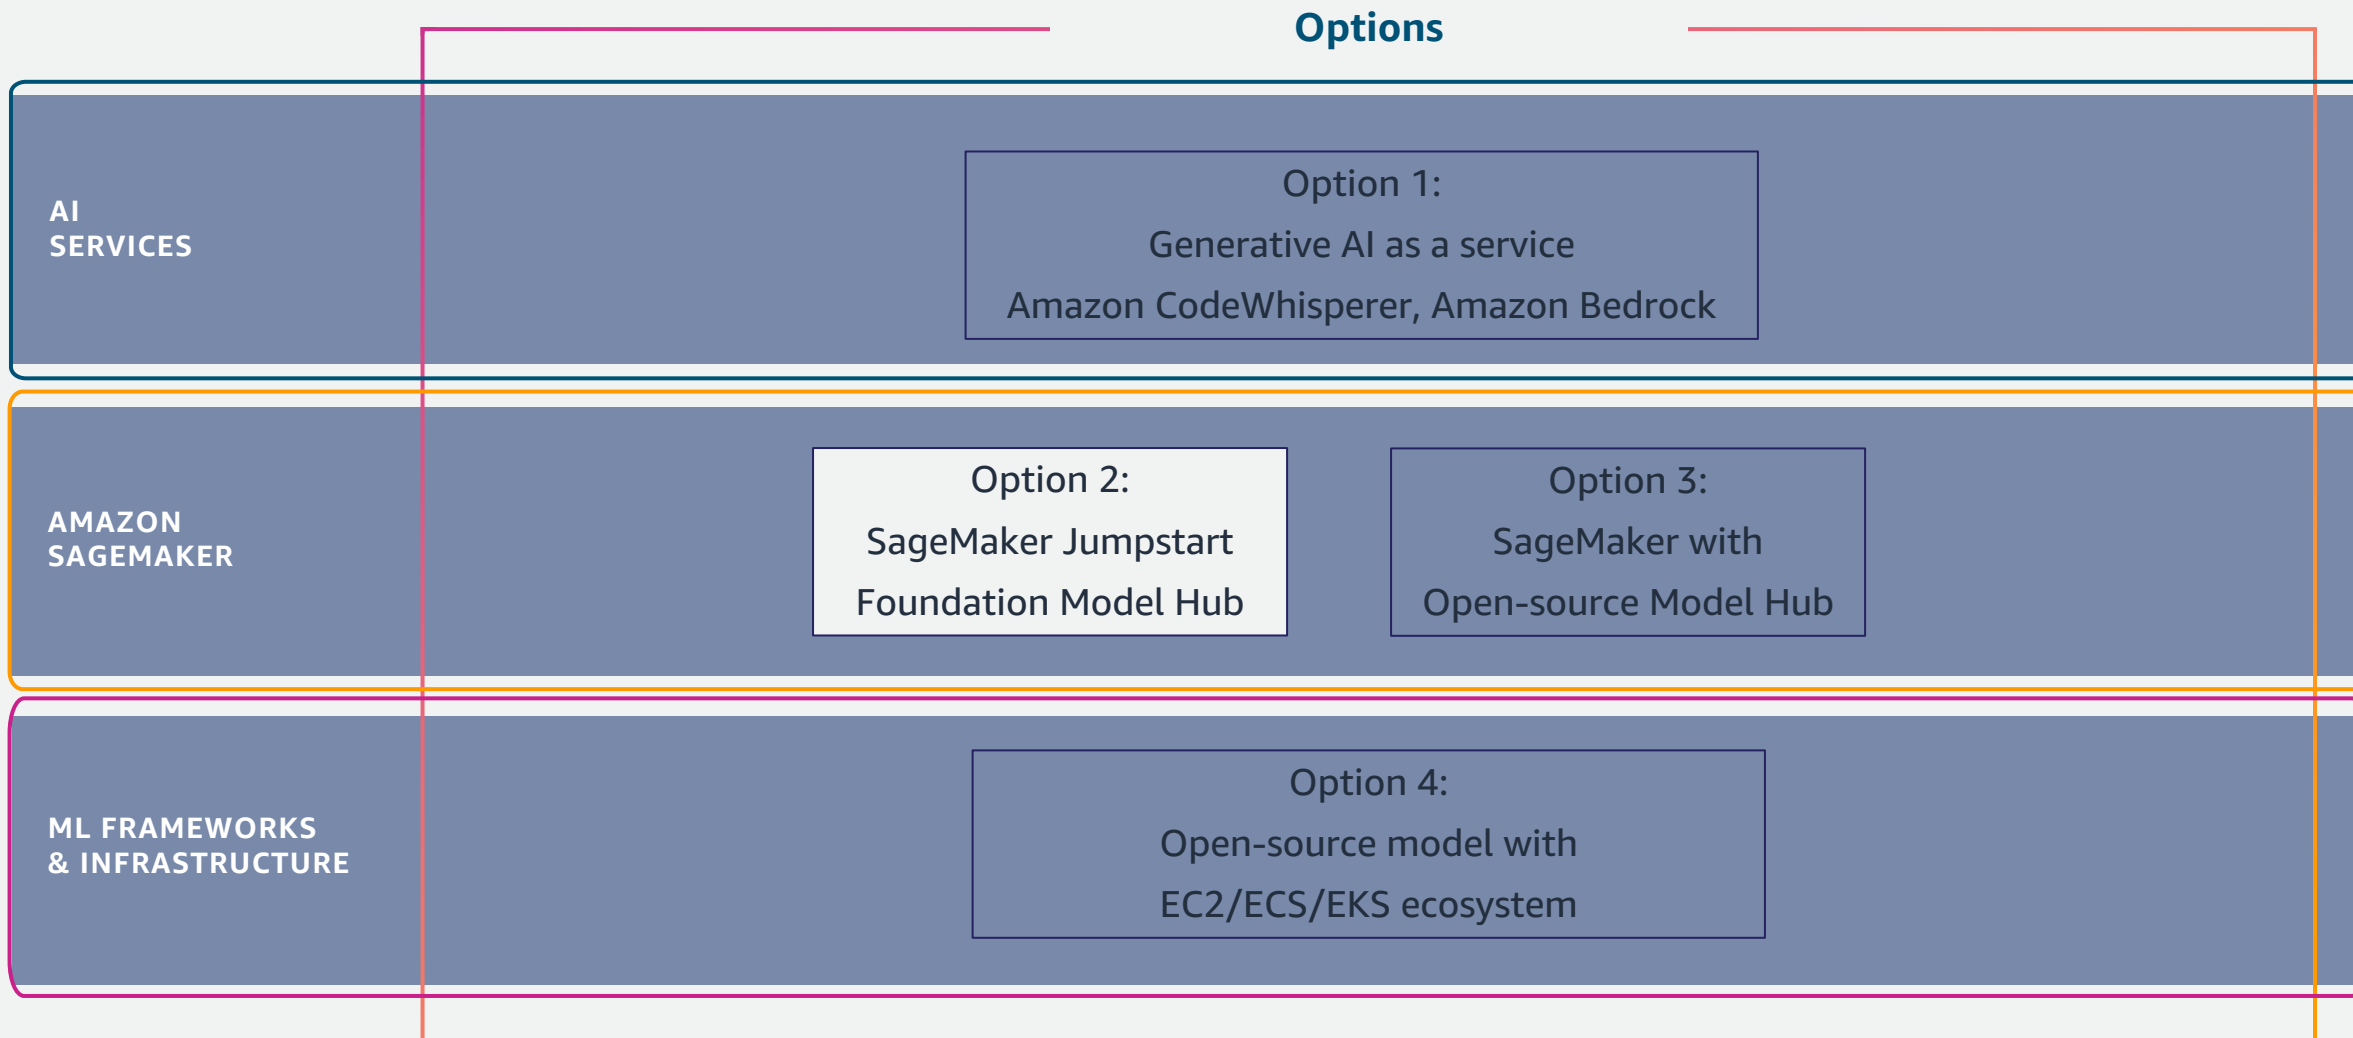

“a photo of an astronaut riding a horse on mars”

Multimodal

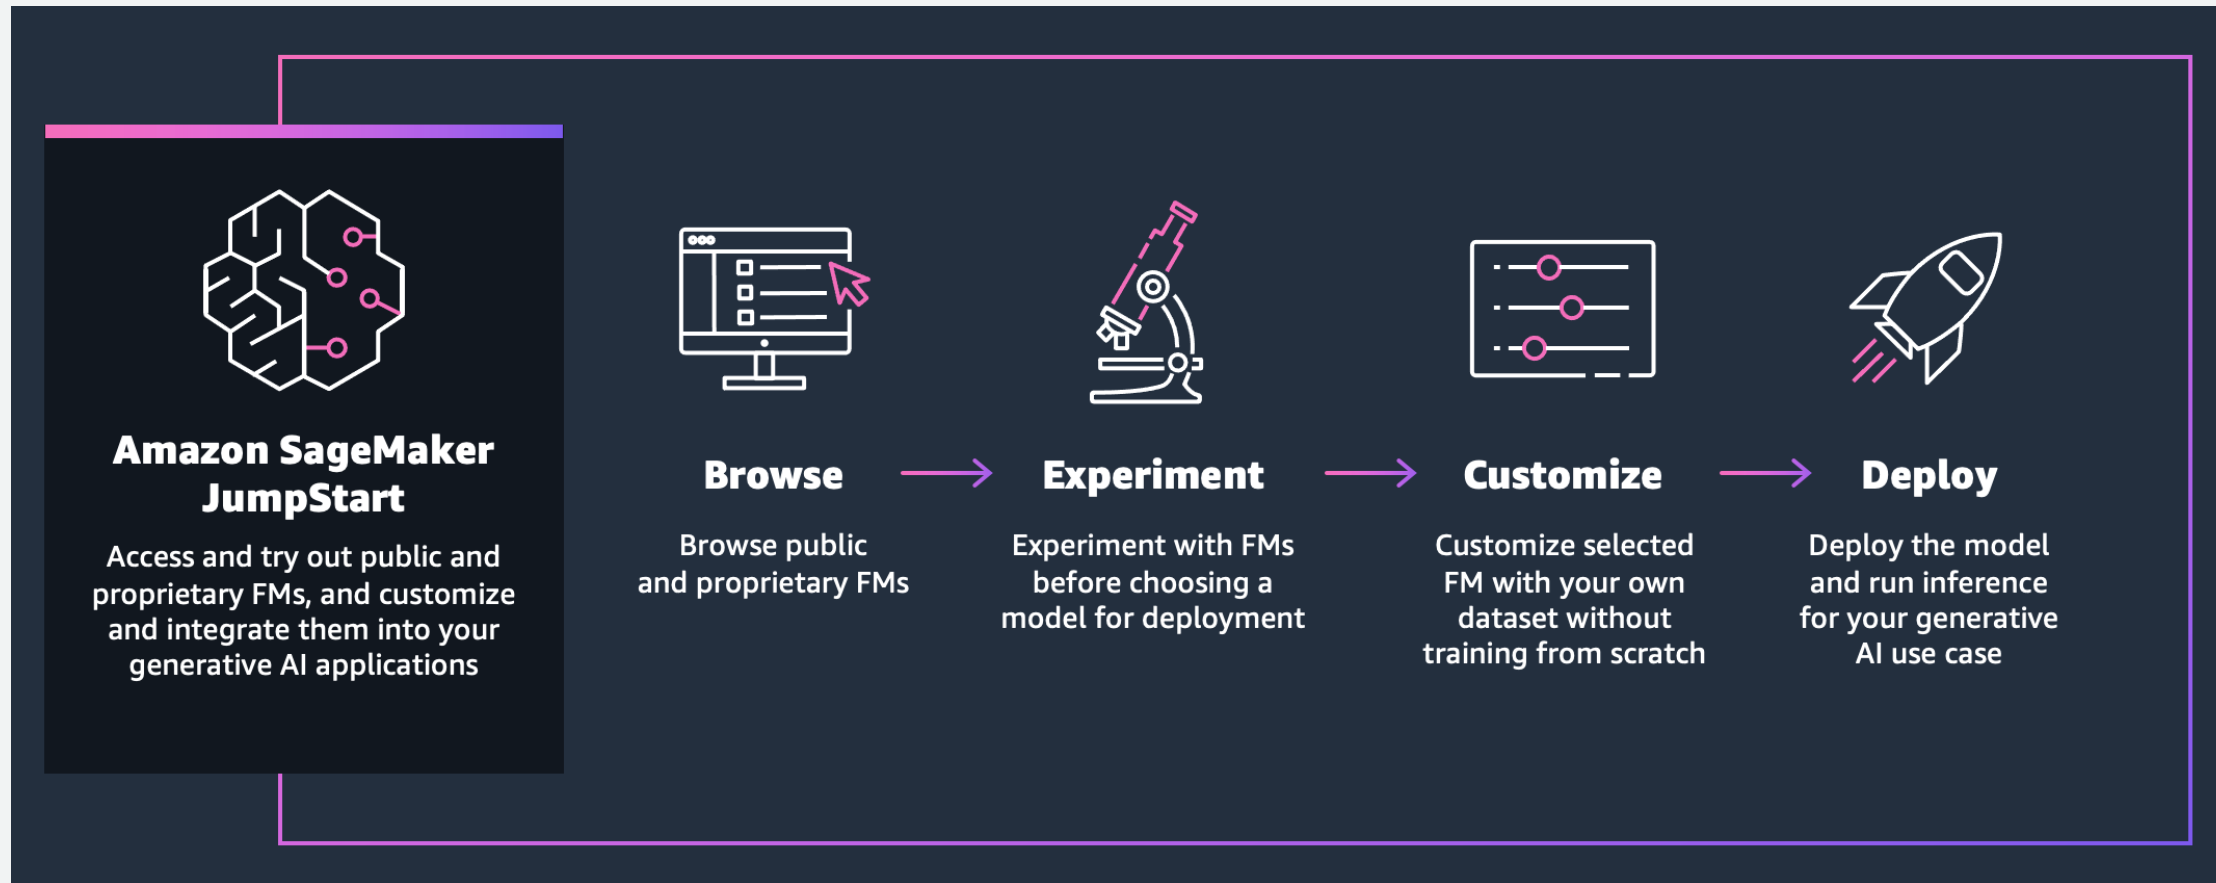

Generate and edit images from natural-language prompts

AWS supports Gen AI in all layers of stack

Foundation models with SageMaker JumpStart: How it works

Foundation models available on SageMaker JumpStart for self-managed access
